Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 January 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 and 10-12, are rejected under 35 U.S.C. 103(a) as being unpatentable over KR 2002-0053412 in view of Izumi et al (USPN 5635220). In regard to claim 1, KR 2002-0053412 teach each claimed limitation (abstract; figs 1-4) except placing the encapsulated PCB module in a jig and mechanically removing the EMC corresponding to the upper gate and the lower gate from the encapsulated PCB module. Izumi et al teach an circuit board encapsulating method including removing the flash by placing the encapsulated circuit board module in a tie bar cutting die--as a note, the tie bar cutting die constitutes the claimed placing and mechanical removing steps. KR 2002-0053412 and Izumi et al are combinable since they are analogous with respect to encapsulated circuit board modules having flashing thereon. Thus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to include the placing and mechanical removing steps (tie bar cutting die) of Izumi et al into the process of KR 2002-0053412 in order to efficiently remove the flash of the PCB of KR 2002-0053412. In regard to claims 10-12, such are taught by KR 2002-0053412 (abstract, figs 1-4).
3. Claims 5-9 are allowed.

4. Applicant's arguments with respect to claims 1 and 10-12 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents teach the state of the art: US 2004/0178514; JP 11034114; JP91009189; and JP9109189.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is
